Tour 3: Extraordinary sightseeing tour of Warsaw

Sightseeing tour of Warsaw will be unforgettable for you. We offer you the round trip by comfortable coach with tourist guide comments through the most important historical and modern places of Warsaw. The tour is interleaved by short walking tours in Łazienki Royal Park and Old Town. Starting point for the coach trip is the main entrance of the Palace of Science and Culture (EPE'17 Conference place)

Highlights

Grand Theatre - National Opera

One of the most modern theatres in Europe, and the largest stage in the world.

Presidential Palace

The Presidential Palace is one of the largest palaces in Warsaw. This is the official seat of the President of the Republic of Poland.

The Old Town & the Royal Castle

Walking down the streets of the Old and New Towns allows you to rest from the bustle of central city life. Atmospheric alleys, squares, and cosy cafés create a unique sense of history, and in the summer, the Old and New Town Squares become stages for musical and theatrical performances and open-air galleries.

The Royal Castle was built in the 15th century. It served as residence of Mazovian princes. Once the capital was moved from Krakow to Warsaw, the castle served as seat of the king and the Parliament. The castle has been renovated repeatedly and destroyed completely during World War II. It was rebuilt between 1971-1988 using castle remains and rubble. Today, the segment with the clock tower opens the way to the Old Town.

Cathedral Basilica of St. John the Baptist

The cathedral was erected in its present form in the 14th century. It has witnessed many historic events, including weddings, coronations and royal funerals.

Barbican

An example of 'defence construction', this is a part of the city walls built in the 16th century. Almost being completely destroyed during World War II, it was restored after the war ended.

Łazienki Park & Palace on the Water

Łazienki Królewskie Museum is a Palace-Garden complex which includes a park (76 hectares of nature, right in the city center) and numerous historical objects. The park was created using the formerly wildly growing forest, allowing the animals to be 'detained' under natural conditions. In the 18th century it became the most beautiful planned area in Warsaw and one of the most beautiful in Europe, equally stunning in terms of its greenery and architecture.
